

# **Automated printed circuit board labelling**

Enable Smart Manufacturing

# Enable Smart Manufacturing

In Smart Manufacturing machines and systems generate, analyse and use data to optimise production efficiency, create flexible manufacturing processes and respond quickly and at low cost to changes in demand. An Industry 4.0 Smart Factory employs only systems that are interconnected and able to send or receive data from the other systems in the supply chain.

Via durable product labels that remain legible throughout entire production cycles, applied by accurate, automated print & apply systems, Brady can connect every circuit board in production to your Smart Factory. With our solution, every circuit board you produce can become a data generator to send information to your Manufacturing Execution System, to other machines and production cycles, or to your supply chain both up- and downstream.

## Label your printed circuit boards

Accurate tracking of raw materials and finished goods throughout production processes can increase production efficiency, open up new markets and attract more customers by enabling a number of competitive advantages:

- increased product quality control
- increased product safety
- increased reputation and brand protection
- reduced counterfeit components
- reduced production process costs
- reduced warranty costs
- reduced product recalls
- legal compliance
- regulatory compliance

## Automate your labelling

A fully automated printed circuit board labelling solution can activate the competitive advantages of Smart Manufacturing:

- increased workplace efficiency
- more data analysis for continuous improvement
- increased data accuracy
- faster problem intervention
- faster product batch localisation
- aligned raw material intake and machine operating parameters

# Automated printed circuit board labelling

Brady offers a reliable and complete solution to automate printed circuit board labelling in order to enable Smart Manufacturing. Our solution includes these components:

- durable auto-apply labels
- reliable auto-apply systems
- custom support including setup, maintenance and parts
- extensive label testing in in-house laboratories

# Automatic label print & apply

The **BSP61 Print and Apply System** offers a complete solution for fast automatic printed circuit board labelling anywhere along the production line. It combines a robust thermal transfer label printer with a reliable automatic applicator and is designed to consistently print and accurately position and apply labels in almost all manufacturing applications.

## The BSP61 Print and Apply System offers

- real time processing with zero queue print & apply
- simultaneous print and apply
- crisp printing at 300 or 600 dpi
- various label size printing
- easy integration in production lines
- high accuracy in various placement angles
- easy connections with existing ERP systems
- ESD safety with anti-static brush
- great reliability with Brady's printed circuit board labels

**Zero queue print & apply**

# Automatic label feeding

The **ALF14 label feeder** automates label feeding to your existing pick & place machine. Fast, efficient and easy to use, the ALF14 Label Feeder offers effective automated label feeding and can be implemented anywhere along the production line.

Labels are simply treated like any other component and are placed with the accuracy of your current pick and place machine. The label feeder's compact and durable design allows for flexibility and simplicity.

## The ALF14 label feeder offers

- easy label loading and setup
- fast sensing and dispensing
- sends a warning signal when label guiding latch is left open
- easily adjustable liner width to avoid downtime
- compatibility with a wide range of label sizes
- compatibility with a range of pick & place machines
- easy integration thanks to a small footprint
- great durability
- easy signal interfacing for machine compatibility
- great reliability with Brady's printed circuit board labels

**Flexible label feeding**

**Product specifications

# Reliable & fast precision printing

The **BradyPrinter i7100 Industrial Label Printer** offers durable and highly accurate label printing for business critical high volume identification challenges in Aerospace, Defence, Mass Transit, Electronics, Automotive and Logistics industries. Quickly print a wide range of high quality identification materials for a variety of applications including cable, printed circuit board and asset & component identification.

## The BradyPrinter i7100 Industrial Label Printer offers:

- an easily accessible touch screen interface
- a small system footprint
- fast consumable changes
- a powerful internal processor designed to handle up to 7000 labels per day
- up to 300 mm/sec print speed
- 600 dpi ultra-sharp printing
- centre alignment of prints for high printing accuracy
- interchangeable platen rollers for optimised printhead life time
- a wide range of high quality identification materials

# Durable printed circuit board labels

Brady's **B-7727 polyimide printed circuit board label** is specifically designed for auto-apply applications. The specially designed APL (Auto Apply Label) range has a reduced liner width and works with a smaller ribbon for ultra-compatibility with auto-apply systems.

B-7727 can withstand temperatures up to 300°C and the powerful chemicals and cleaning processes used in PCB assembly, equipment and component manufacturing.

## The B-7727 printed circuit board label offers

- outstanding auto-apply compatibility thanks to a reduced liner width
- great placement accuracy and high pick-up rate
- reduced risk of adhesive bleeding
- extreme washing/aggressive cleaning applications
- top or bottom label placement
- surface mount and through-hole assembly
- high heat (300°C) resistance
- great legibility, even after exposure to chemicals
- good performance in reflow, wave solder and board washing
- abrasion resistance
- printability on-site
- available as pre-printed labels on request

Reduced liner width for ultra auto-apply compatibility (APL range)

Discover the full auto-apply label (APL) range on pg 13

### Compatibility

BSP61

ALF14

i7100

### Zestron/Kyzen compatible

Brady's B-7727 printed circuit board label is compatible with cleaning agents from both Kyzen and Zestron. Our B-7727 label can resist the newest PCB cleaning agents.

# Durable printed circuit board labels

**Laser engravable labels** are designed to increase the legibility of part markings and barcodes lasered on printed circuit boards and complex surfaces. Thanks to increased contrast, barcodes lasered on the label are easier to scan, which leads to reduced waste in supply chains with stringent traceability requirements.

## Laser engravable polyimide labels offer:

- high barcode and marking legibility
- durable, high contrast markings
- reduced waste versus direct part marking
- outstanding compatibility with auto-apply systems
- available in black on white and white on black

## Why use labels?

Label identification offers a number of distinct advantages for printed circuit board manufacturers:

## Printing Technology Comparison Guide

Attribute	THT Printing	Laser Marking	Direct Marking
Initial equipment costs	Low	Moderate	High
Recurring costs	Moderate	Moderate	Low
Marking permanence	Good	Excellent	Excellent
Print resolution	Good	Excellent	Good
Print speed	Excellent	Good	Poor
Contrast	Excellent	Excellent	Poor*
Bar code grades	Excellent	Excellent	Poor*
Automation	Good	Excellent	Excellent
Air handling	None	Recommended	Required
Easy to re-work	YES	YES	NO

\*direct marking color contrast defined by substrate and laser marking mechanism

### Compatibility

LASER

ALF14

The **B-7634 masking film for PCB's** offers excellent protection during electronic manufacturing processes, including wave soldering and hot air levelling. The polyimide masking film is ideal for auto-apply and can be removed cleanly.

## The B-7634 masking film:

- acts as a protective film on PCB's, components and through-holes
- can be used to protect or insulate in a range of high heat applications
- can be applied automatically with a pick & place machine and the ALF14 Label Feeder

### Compatibility

Automated print & apply

Durable labels

## Service agreements

On top of an included 1 year warranty, Brady offers premium support service agreements for both the BSP61 Print and Apply System and the ALF14 Label Feeder. Service agreements are fully customisable to your needs and can include premium support by phone and/or support at your premises.

### Available service agreement options:

- preventive maintenance
- fast repairs
- replacement devices
- dedicated in-house contact center
- support in 12 languages
- local presence
- man hours included
- no unexpected costs

## Scanners & portable data terminals

High quality scanners are available. With portable or integrated scanners, your traceability system can evolve beyond supply chain requirements and generate data that can be analysed to create business cases for production optimisation.

### Available scanner services:

- scanner purchasing
- scanner configuration
- scanner integration

## Integration

Brady offers label creation software with automation options, next to advice, support and full collaboration with third parties to help integrate our traceability solutions in your production line. The advantages of Smart Manufacturing including increased production control, centralised monitoring and continuous improvement data can be fully enabled by a complete integrated printed circuit board labelling system.

## In-house laboratory

Brady's in-house laboratories rigourously test our solutions in line with standard testing methods. Our scientists test the performance of complete traceability label constructions including the liner, adhesives, label materials and label top coat to deliver solutions that solve your challenges. Our in-house lab can offer test results on request or test new traceability label requirements when relevant.

### Printer Specifications

<b>Description</b>	Print and apply system precision developed for applications such as PCB assembly and marking, component and product marking in high quality.
<b>Applications</b>	Higher volume applications such as PCB marking, component and product marking in high quality demanding industries like automotive, electronics and manufacturing.
<b>Hours of Operation</b>	24 hours/ 7 days
<b>Recommended Usage per Day</b>	7000
<b>Software Compatibility</b>	LabelMark, Windows based driver for 3rd party software use, CodeSoft
<b>Colour Capability</b>	Monocolour
<b>Connectivity Options</b>	Serial, USB. Optional: Ethernet
<b>Stand-alone Printing (Detached from PC)</b>	—
<b>Cutter</b>	—
<b>Hardware Options</b>	Applicators
<b>Internal Memory Capacity</b>	64 MB
<b>Memory - Ram/Flash</b>	8 MB
<b>Label Dimension Limits</b>	Max. Width: 58.00 mm (BSP61-62) or 114 mm (BSP61-34) Min. Width: 4.00 mm (BSP61-62) or 10 mm (BSP61-34) Min. Height: 4.00 mm (BSP61-62) or 8 mm (BSP61-34)
<b>Maximum Print Width (mm)</b>	57.00 mm (BSP61-62) or 105.60 mm (BSP61-34)
<b>Print Speed (mm/sec)</b>	100 mm/sec (BSP61-62) 250 mm/sec (BSP61-34)
<b>Print Technology</b>	Thermal Transfer
<b>Print Resolution (dpi)</b>	300 / 600

## ALF14-Label Feeder

Specifications	
Weight	0.45 kg
Size W x D x L (mm)	43 x 115 x 54
Height of pickup position (mm)	50
Chopping time	0.25s for 6.35 mm x 6.35 mm label
Approval/Compliance	CE, WEEE, RoHS
Voltage	24 V
Power Consumption	max. 24 W
Current Consumption	max. 1 A
Power Supply	Main supply wall plug charger, Machine cable (Eurplacer, Fritsch, Juki, Siemens, Yamaha)
Connector	9 pin SUB-D Male
Compatible Pick & Place Systems	Siemens ASM Siplace Series, Europlacer, Fritsch, Fuji NXT, Heeb innotec, Hitachi, Juki Series 2000, MyData, Samsung SM Series, Yamaha, Assembléon (others pending)
Signal Interface	- Label Feed Request
	- Label ready
	- Error
Minimum Label Size (mm)	4 x 4
Maximum Label Size (mm)	23 x 23
Max. Liner Width (mm)	25
Label Conveying Speed	10-200 mm/s
Label Positioning Frequency	up to 6 labels/second (depends on label size)

## BradyPrinter i7100 Industrial label printer

Printer Specifications	
<b>Description</b>	BradyPrinter i7100 Industrial Label Printer
<b>Includes</b>	This i7100 printer comes in a cardboard box. It ships with a power cord, 2 empty ribbon cores, a USB cable, a product CD holding the driver, the user manual in languages, the configuration/settings manual in English, a printed user manual in English and a Brady Workstation Basic Suite or a Brady Workstation PWID Suite
<b>Applications</b>	General & Industrial Identification; Circuit Board & Component Identification; Wire & Cable Marking; Laboratory Identification
<b>Print Speed (mm/sec)</b>	up to 300
<b>Internal Memory</b>	256MB RAM, 50MB IFFS Flash, SD card, slot up to 512GB
<b>Software Compatibility</b>	Brady Workstation, LabelMark, Windows based driver for 3rd party software use, CodeSoft
<b>Recommended Usage per Day</b>	7000
<b>Colour Capability</b>	Monocolour
<b>Language Support</b>	Arabic (Egypt), Bulgarian, Croatian, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Italian, Lithuanian, Macedonian, Norwegian (Bokmål), Persian (Farsi), Polish, Portuguese, Romanian, Russian, Serbian, Slovenian, Spanish, Swedish, Turkish
<b>Weight (kg)</b>	10
<b>Size W x H x D (mm)</b>	252 x 288 x 460
<b>Max. Label Width (mm)</b>	110 mm
<b>Min. Label Width (mm)</b>	4 mm
<b>Max. Liner Width (mm)</b>	114 mm
<b>Min. Liner Width (mm)</b>	9 mm
<b>Max. Print Width (mm)</b>	105.7 mm
<b>Warranty</b>	2 years

## BradyPrinter i7100 accessories

Article No.	Order Reference	Description
133251	PCK-6	Printer Cleaning Kit - Thermal Transfer Printers
149043	i7100-PR-120mm	120mm Platen Roller with synthetic rubber coating
149044	i7100-PRS-120mm	120mm Platen Roller with silicone rubber coating
149048	i7100-PR-25mm	25mm Platen Roller with synthetic rubber coating
149051	i7100-RAR-120mm	120mm Rewind Assist Roller with synthetic rubber coating
149054	i7100-PR-80mm	80mm Platen Roller with synthetic rubber coating
149055	i7100-PR-50mm	50mm Platen Roller with synthetic rubber coating
149069	i7100-CUTTER+TRAY	Cutter CU400 with Tray
149070	i7100-ANTI-S-BRUSH	Antistatic Brush
149071	i7100-IO-LABEL-BOX	Label Selection I/O Box
149072	i7100-PS1000MP	Present Sensor PS1000MP
149073	i7100-IO-CONNECTOR	I/O Interface Connector SUB-D 25pins
149074	i7100-RG400-PLATE	Rewind Guide Plate RG400
149075	i7100-PS900	Present Sensor PS900
149077	i7100-IO-INTERFACE	I/O Interface
149078	i7100-PERF-CUTTER	Perforation Cutter PCU400
149080	BT-USB-ADAPT	Bluetooth USB Adapter
149131	WLAN-EXANT	USB Wlan Stick with External Antenna
149132	i7100-ADAPTER-100	i7100 Adapter for 100mm Core
149135	i7100-PPLTEXT-410	i7100 Extended Peel off plate DP410
149207	i7100-TEAR-OFF	i7100 Tear off Plate
149208	i7100-HEX-KEY-TOOL	i7100 Spare Hex Key Tool
197823	SD-CARD-8GB	SD Memory card 8GB

# Printed circuit board labels

## Circuit board label

### Blank labels

## Clean Liner Technology

Brady's traceability labels can be equipped with Clean Liner Technology (CLT), an innovative solution that prevents adhesive bleeding. CLT enables a smooth production cycle by eliminating downtime due to labels not being placed, or due to a fractured liner.

## Electrostatic discharge

Brady's B-717, B-718, B-719 and B-731 printed circuit board labels do not contain high charging materials. The labels prevent the build-up of static electricity to protect PCB's from potentially damaging electrostatic discharge.

# Product Information Resources

## PCB Automation Web Page

Visit Brady's dedicated web page for printed circuit board identification [www.bradyeurope.com/pcb](http://www.bradyeurope.com/pcb). You will find links to the full offer of materials suitable for PCB labelling as well as a range of automated print & apply systems.

## Design any label with Brady Workstation apps

Brady Workstation offers professional, intuitive apps to design quality product and cable labels and safety signs. With Brady Workstation label design becomes easier, faster and quickly adaptable to new label norms thanks to centralised updates. For more information visit [www.bradyeurope.com/workstation](http://www.bradyeurope.com/workstation).

## Find us on YouTube

On Brady's YouTube channel you can find a quick overview of our wide range of portable and benchtop printers and several how-to videos. [www.youtube.com/bradyeurope](http://www.youtube.com/bradyeurope)

## Downloads

Find the latest product updates, manuals, tutorials, printer drivers, product demos and much more for your Brady products on [www.bradyeurope.com/downloads](http://www.bradyeurope.com/downloads).

## Brady Technical Data Sheets

For indept information on any Brady material or print ribbon, visit [www.bradyeurope.com/tds](http://www.bradyeurope.com/tds). To search, you enter keywords pertaining to your desired material or If you know the brady "B"-number for the material, simply enter the appropriate number.

# Brady Corporation

Our mission is to identify and protect people, products and places

## COMPANY OVERVIEW

BRADY was founded in 1914 in Eau Claire, Wisconsin, as W.H. BRADY Co., and renamed BRADY Corporation in 1998. The company began selling products internationally in 1947. In 1984, BRADY went public, with stock trading on the Nasdaq Stock Market, and in 1999, moved trading of its stock to the New York Stock Exchange, where it trades under the symbol BRC. The company's global headquarters is in Milwaukee, Wisconsin.

## BRADY MANUFACTURES AND MARKETS:

- products for identification and safety applications such as signs and markers, printing systems and software to produce identification products on-site and on demand
- products for wire identification, including labelling materials and tools for wire and cable marking in the electrical, datacom and telecommunication markets
- high-performance identification products, including labels and signs that remain legible and highly adhesive even in harsh environments
- products that identify people and enhance security by ensuring the right persons are in the right places at the right time

## OPERATIONS – SOME FACTS:

- 6500 employees around the world
- Operations in 29 countries
- Distribution in more than 100 countries through more than 4,400 distributor partners
