COUNTERFEIT MATERIAL POLICY

In order to ensure the integrity of the products supplied by Genalog we take the possibility of counterfeit materials extremely seriously. It is our policy to conduct business in an ethical manner to ensure the highest standard of business practice.

Genalog have a zero tolerance policy of knowingly and intentionally trafficking counterfeit goods.

To support this policy Genalog shall only obtain material direct from the specified manufacture, a manufactures authorized representative/distributor or from a customer specified source.

Full traceability of products shall be maintained in accordance with our Quality Management System.
